

Syracuse Thunderbirds Aero Radio Society

Plane Propwash

November 2023

Charter 473

No STARS December meeting. The next STARS meeting is Wednesday January 10th at 7:00 via ZOOM

2024 Officers

[Chuck LeVine, President](#)
[Mike Mueller, Vice President](#)
[Bob Rowe, Treasurer](#)
[Jeff Wolsley, Secretary](#)
[Jeff LaPorte, Safety Officer](#)

Directors:
Michael Graham
Paul Volcko 2019-2023
Jeff LaPorte

Volunteer Staff:
[Jeff Wolsley, Propwash Editor](#)
[Michael Graham, Club Historian](#)
[Paul Volcko, Webmaster](#)
[Jim Johnson, Field Committee](#)
[Mike O'Neill, Facebook Admin](#)

The STARS January 2024 meeting will be on ZOOM, on January 10th, at 7:00. Unless otherwise notified, the monthly meetings will be held via ZOOM October through April. The STARS regular monthly meetings will return to the STARS field in May 2024.

It's Deja Vu All Over Again

I hope everyone had an enjoyable holiday season. Our club had a good year last year. Our Airshow/HeliJam showed considerable improvement. Our membership numbers have held well through our flight schools and outreach/specialty programs. The First Day of Winter Fun Fly and the Christmas Party were great fun. Coming up is the Liverpool High School CTE Night on January 18, and our Annual Auction on January 26th at Walcott's Hobby at 5pm.

Some of the challenges for 2024:

1. Review and strengthen the Club's financial position.
2. Continue to build on our growth and work hard to provide an enjoyable, entertaining and positive experience for all members.
3. Continue the great work of our flight school and the specialty nights.
4. Build on our HeliJam/Air Show efforts and look to enhance those projects.
5. Expand our field committee support. This is an area that can always use extra hands.
 - A. Equipment Needs
 - B. Tractor Training
 - C. Revisit Mowing Tracker & Scheduler
6. Field/Clubhouse Improvements.
 - A. Paint/Repair/Clean the club house.
 - B. Improve field safety stands and tables.

C. Revisit taxiway concepts.

7. Review committee structure to align better with the club needs and goals.
8. Investigate alternate meeting sites.
9. Continue Outreach/Educational programs.

There will be more challenges ahead, but with your help and support we will meet them. Please consider volunteering a bit of your time, as this goes a long way in keeping our club one of the best. Any suggestions/ideas for club improvement are helpful, so please plan on attending our monthly meeting as every voice is important.

If you have had any changes to your club information please provide updates to Mike Mueller so that we can keep the club roster up to date. If you have not provided the club with an emergency contact, you are encouraged to do so.

And lastly I, on behalf of the entire club, would like to extend a sincere expression of thanks and gratitude to Paul Volcko for all of his outstanding efforts in leading our club as President during some very turbulent times over the past 5 years.

Thank you Paul!

Chuck
president@cnystars.com / 315-751-2660

2024 STARS dues are due. There is a \$10.00 late fee after the January meeting. Dues must be sent to the Treasurer at this time as an in-person meeting is not possible. (Bob Rowe, 211 Sedgwick Drive, Syracuse, NY. 13203)

From the VP

First of all, I would like to wish everyone a very Happy New Year in 2024. I trust it will be most exciting for you and your family. I want to thank all who gave me the opportunity to serve as your Vice President this year. I hope that I live up to your expectations.

And what can we all do to help our club? Not only invite your neighbors and friends, but can we look to reach out to those that might have disposable income, or time, and can afford to be in our hobby? Are there other ways to reach out to our community to increase the visibility of our hobby? Oh, and don't forget, we work better when we have as many as able to help, in all our events throughout the year. Please consider helping when you are able.

I would certainly be remiss, as with Chuck to thank all of the officers in 2023 for all

their help in making it a very good year. Of course, special kudos to Paul Volcko, who has served us in so many different ways. Thanks Paul for all you have done!!!!

As Chuck said, PLEASE give us some input on what you would like to see in the club this year. And let us know if you have any ideas for how to improve what we are doing, how we are doing it, or what you think we should be doing. We all appreciate it. I think we are going to see a suggestion box around soon, and if so, you can put your thoughts there or you can send email to president@cnystars.com, or vicepresident@cnystars.com, mmuellerva@yahoo.com. We will certainly appreciate your input!! Thanks again.

Secretary's Report: Jeff Wolsley

Note: There is a new section in the Propwash labeled Important Links For STARS Members. This section contains links that every STARS member should be aware of.

The November 2023 STARS meeting was held on ZOOM. The meeting was called to order at 7:05 by President Paul Volcko. There were 17 Open members, 2 Associate members, 1 Family member, 0 Youth members, and 1 Guest in attendance.

Secretary's Report:

The Secretary's report from the October Propwash was accepted as published. Motion to accept by Mike Graham and 2nd by Mike Mueller. Carried.

Treasurer's Report: Bob Rowe

Dues are coming in. A review of finances shows there was a net loss of revenue in 2023. Profits from food sales have dropped off. From 1999 to 2021 our taxes have increased \$500.00. To combat this a possible dues increase may be needed to keep the treasury in good shape.

Starting in 2024, expenditures greater than \$500.00 will be published in the Propwash first to alert the membership, then voted on at the next STARS regular monthly meeting. STARS debit cards are being collected and will be re-issued after January 1, 2024.

There was a question regarding the donations the club received from Warren Warren's donations went to the hanger and into

the treasury general fund. Both Warren's and Peter's donations were on the books in 2020.

Motion to accept by Chuck LeVine and second by Mike Graham. Carried.

Correspondence:

Nothing new to report.

Committee Reports:

Field Committee: Jim Johnson

Jim reported the storage platform for the new reels is complete. The Simplicity mower is back together and operational. The well pump has been removed for the season. The refrigerators will be empty by Friday 11/10 for the season.

Jim went on to note that the pavilion walls are in need of some repairs. These will be undertaken on the spring.

A suggestion box has been posted in the club house.

Safety Report: Jeff LaPorte

No Jeff tonight. Sorry we missed his report.

AMA Report: Phil Morgan

Don't forget to send in your AMA renewal. Don't forget to renew your FAA registration.

-- Continued--

If your FAA registration lapses, you will have to renew from scratch and you will be issued a new registration number.

If the FAA requires part 107 adherence, this will add additional burden and expense for modelers. This will undoubtedly discourage and possibly prevent new modelers from entering the hobby. The part 107 test is online and has a \$175.00 fee. The test takes 2 hours to complete.

If you get part 107 certification, you are allowed to contract for your services and earn money. You may fly in controlled airspace and beyond visual line of sight. You will be allowed to fly both recreationally and professionally. Remote ID will be required on your aircraft.

Old Business:

Flight schools and special interest groups have concluded for 2023. These will be back in 2024.

Elections:

The slate of officers for 2024 are:

President- Chuck LeVine	Secretary- Jeff Wolsley
Vice President- Mike Mueller	Safety Officer- Jeff LaPorte
Treasurer- Bob Rowe	

There were no challengers to the proposed slate of officers. The Secretary voted to certify the officers for 2024. Congratualtions to the new and returning officers. Thanks to the outgoing officers for their outstanding job.

Phil Morgan stepped down from the Board of Directors and is replaced by Paul Volcko.

Christmas Party:

Phil Knapp- Only five responses have been received so far. Please contact Phil to make sure he received your response.

There was discussion of inviting special guests such as Bruce Throne and his wife, Peter Seiffert's wife, etc.

No gift exchange. The ladies in attendance will get a corsage. A head count is due to get the correct number of favors. The deadline to get the RSVP is in two weeks prior to the party date. Phil is looking into using PayPal to receive the payments.

The Christmas Party form is below in the Propwash. Please note there is no provision for a PayPal payment indicated on the form.

Field Improvements- Long Term Planning:

CONTINUE FIELD SMOOTHING

Continue to improve the field. Fill the low spots and grade off areas that attract standing water.

AED MACHINE UPGRADE/STORAGE

Phil Morgan requested a heated storage box for the AED so it can be kept at the field year-round. Nothing too elaborate. A 6 x 14 x 14 box with a 100watt lightbulb should be sufficient.

New field improvement projects are coming in 2024.

Re-anchor the electrical boxes along the fence line. They have been upset by frost heave.

In a previous meeting, Mike O'Neill mentioned the new Micron Plant starting up in Clay. There will be a flood of tech people and population growth in our area. We should be thinking of ways to promote our club.

Chuck LeVine mentioned flight line table replacement. Some of the tables are shot. Need a way to transfer the tail holders from the old tables to the new. Maybe look at a redesign because the tail holders prevent the tables from folding properly/fully.

Renewals for 2024:

Renewals for 2024 have been trickling in so far. Dues are due! The January meeting is the cutoff to avoid accruing a 10% late fee. The club share is still 160.00 if you are contemplating becoming a full member..

New Business:

Walt Throne Services:

The services for Walt are set for 11/11. Calling hours are at 2:00 and 5:00.

A couple of suggestions were made regarding donations in Walt's name-

- We take up a pool of money to be donated in Walt's name to the AMA to sponsor Jr. memberships.
- Make a donation in Walt's name of a cash amount from the STARS and other area clubs. Personal donations can be added to this amount.
- Phil Lamkey suggested a floral arrangement.

Paul Volcko will send out a notice to the membership asking if you would like to make a personal donation in addition to the club donation.

New Members:

Samatha Ruebsamen- Youth member application. Vote on at the Jan. 2024 meeting.

Real Estate Committee:

No input from the committee at this meeting.

Club Hat Order:

Club hats are available. They are 20.00 each. Put your money in the soda bank in the fridge before you take a hat. The white hats are already gone. See Paul V. about custom embroidery on the hat. The embroidery starts at \$8.00.

Board of Directors Meeting:

There will be a Board of Directors meeting immediately following the January 2024 regular club meeting.

Adjournment:

The November 2023 regular monthly meeting of the STARS was adjourned at 8:08.

Secretary, Jeff Wolsley

Calendar of Events

NOTICE: EVENT DATES MAY CHANGE OR CANCELLED OUTRIGHT.

Calendar of Events for January and beyond:

Editor's Note- Check with the event sponsor for actual date and time. These dates are accurate at the time the Propwash was published. New events are added all the time.

Dec 12- STARS Christmas Party

Jan 18- Liverpool CTE Night

Jan 26 2024- STARS Auction

March 3- STARS Snow Fly

Model Aircraft Forum- TBD

May 18- STARS 2nd Control Line Fun Fly (*sanctioned event*)

June 7- (tentative) Liverpool High School field trip

June 15- STARS Family BBQ

July 20- STARS Heli Jam (*sanctioned event*)

August 31- STARS Air Show (*sanctioned event*)

October 5- STARS Ringmaster Fly-a-thon

For additional events, click here → [AMA DII Event Listing](#)

STARS Flight Schools- Well , It s happened. It s finally too late to join the 2023 flight schools, but Flight School will be back in 2024.

Fixed wing- See you in 2024

Heli/Multi Rotor- Still meeting informally when the weather permits. See you back in 2024.

Indoor Flying

The Indoor flying schedule will be updated here as soon as I get updates.

Indoor flying at Sacred Heart Church Cicero was forwarded to me by Tim Smarzo of the Voltaires.

Mondays 1:30 to 4:00 and Thursdays 12:30 to 3:30 (as of 10/08/23).

The church has become more security conscience. All doors are locked except the main door. The gym lighting switch has changed. The new key is in the same place as always, the cabinet in the kitchen, attached to a piece of aluminum bar. Unlock (If locked) pull up the plate, and flip the switch. All doors have alarms except the Gym door. This means that once a member comes in the front door we can use the gym door to haul gear in and out. We need, as always, to make sure the lights are off and doors are closed all the way before the last person leaves.

The following needs confirmation-

Underground R/C Destiny USA. Tuesday evenings/nights 315-715-4508

Manlius Pebble Hill- So far is listed as no flying this winter (as of 10/08/23).

Camillus Indoor Aviators (CIA) Indoor flying at First Baptist Church located at 1960 State Route 5 in Elbridge 11/18 thru ?, on Friday evenings. If enough interest is generated, flying possibly permitted on Saturdays as well.

CNY Indoor Flying Society No group contact available.

Walt s Hobbytown- NO INDOOR FLYING THIS SEASON

MexAir R/C NO INDOOR FLYING THIS SEASON

for signing up new AMA members.

Classified Ads-

FOR SALE:

WANTED:

1987 AMA window membership sticker. Please contact Jeff Wolsley if you have one that you would be willing to donate. jwolsley@verizon.net

Warren Wagner's SIG Kwik-Built Chipmunk partially completed aircraft. If you have it and would like to re-home it, please let me know.

jwolsley@verizon.net

If you want to list modeling items for sale, R/C services offered, or a really neat R/C web site, this would be a good spot. Free for members. Send your advertisement by e-mail to jwolsley@verizon.net. Please put STARS ADVERTISEMENT in the subject line.

STARS In MA, June 2023- Thanks to Mike Graham

Important Links For STARS Members-

STARS Website:

The STARS website- cnystars.com or <http://www.amadistrictiistars.org/>

STARS Webcam:

The STARS webcam- <https://www.cnystars.com/cameras.php>

STARS ZOOM Meetings:

STARS meetings will be held on-line via ZOOM October to April or in case of bad weather. Watch for notification prior to the meeting start time.

The ZOOM meeting credentials are on the STARS web page, and are sent out with the fall/winter/spring Propwash email.

ZOOM Meeting link:

<https://us02web.zoom.us/j/88488515371?pwd=c2ZiRWhkMklrbGZ5WENDaE12SIB5Zz09>

To join from the STARS web page, go to cnystars.com. Then click on the club events tab. On the club events page, in the lower right under Club Meetings, click the red text that says **online via ZOOM**. This will take you to the ZOOM meeting. Click on the Launch Meeting button. You will enter into the meeting, or you may see a dialog box that says, Please wait for the host to start the meeting .

If you don't already have ZOOM installed on your computer for the first time, below the Launch Meeting button, it says- Don't have Zoom client installed? Download Now . Click on the Download Now text and follow the prompts to set up ZOOM on your computer.

Facebook:

The STARS Facebook page- <https://www.facebook.com/groups/amastars/> There are 289 members currently. [Mike O'Neill](#) is the administrator.

Paul Volcko talked about setting up a business page. Events can be set up here and allow us to do some advertising.

Attention New Members:

Please take the TRUST test if you haven't already. This is a 100% pass test.

TRUST- The Recreational UAS Safety Test

The test can be found here-

<https://trust.pilotinstitute.com> or here-

<https://trust.modelaircraft.org/>

Note there are scam websites also, so use the above links.

Start by registering on the site. Your name is required and so is a password. These will be asked for/created before entering the site to take the test.

The test is a pass/pass. It is given in four parts. Each of the four sections begins with a lesson immediately followed by questions. The number of lessons and questions differ in each section. There are a couple of questions that are poorly worded so it's likely to get these wrong. Not to worry though, you get to correct it until you get it right! You will score 100% in each section, guaranteed.

Download and save your certificate. I had to download mine twice before it downloaded. DO NOT leave the download webpage until your certificate has been successfully downloaded and saved. You get to do the test again from scratch if you miss this step.

Print out the certificate and keep it in your wallet or your flight box. There's a registration/authentication number on the certificate that you might want to add to your aircraft ID label..

The complete AMA safety handbook is available here- <http://www.modelaircraft.org/files/100.pdf>

This is a link to some FAQ from the AMA regarding remote ID- [Remote-ID-FAQ-Feb2023.pdf \(modelaircraft.org\)](http://www.modelaircraft.org/files/Remote-ID-FAQ-Feb2023.pdf)

Federal Aviation Administration (FAA):

This is to set up or renew your FAA registration. Renewal is every three (3) years. You will or already have received your renewal email. The email is from uas.faadronezone@faa.gov. Entry or renewal is \$5.00.

[FAADroneZone Access - Home](#)

Phone Apps:

[UASidekick](#) [The Ultimate UAS Pilot Assistant](#)

This is an app for your phone that gives weather conditions, club locations, FRIA locations, and event schedules for UAS pilots. This is for recreational pilots as well as commercial drone pilots.

[B4UFLY](#)- Download this app to your cell phone. FAA uses this to alert pilots to possible stoppage in your flying area.

[Air Control](#)- Download this app to your phone. This is to set up your flight if you are flying outside of a FRIA.

This Mike O Neill s website to check out- <http://www.flyboyzblog.com/>

This site has articles pertaining to both full scale and model aircraft. Check it out.

The latest satellite photo with the new runway! Just need the control line circle improvements. Thanks Gary Natali

STARS FAA APPROVED FRIA AREA.

Remember: A repaired aircraft should be treated just like a new aircraft. It needs a full ground check before flying. Don't forget to inspect the areas that were not repaired. They may have hidden damage. Fly it like it's the first time in the air and will need a full functional check before flying it in front of spectators or in competition.

FUEL YOUR PASSION

Thursday, December 07, 2023

Syracuse Thunderbirds Aero Radio Society
5237 Kasson Road
Syracuse, NY 13215

Dear STARS,

The AMA Foundation is incredibly grateful for your donation of \$390 made on December 6, 2023, to the Education Fund in memory of Walter Throne. Your gift has not only touched our hearts, but will also make a significant impact on the lives of many model aviators.

Established in 2013, the AMA Foundation fundraises and grants funds exclusively for and on behalf of the Academy of Model Aeronautics. Donations such as yours support a variety of charitable needs including helping us grant scholarships to deserving college and higher-education students, preserving precious artifacts at the National Model Aviation Museum, and aiding clubs in improving their flying sites.

Your also generosity extends to clubs affected by natural disasters, providing them with the much-needed resources to reopen and continue their operations. This, in turn, allows them to keep the spirit of model aviation alive in their communities.

Your continued support is crucial to our mission. We are immensely thankful for your trust and belief in our cause. You are indeed making a difference and we are excited to have you as part of our AMA Foundation family.

Thank you once again for your kindhearted donation. Together, we can continue to soar to new heights and inspire the next generation of model aviation enthusiasts.

With deepest gratitude,

Thank you!

WAM is a Friendly Helpful Club

IMAA Big Bird Safety Checklist

Balance

Is the longitudinal center of gravity (fore and aft) within the range shown on the plans?

Is the model balanced laterally (side to side)?

Alignment

Are all the flying surfaces at the proper angle relative to each other?

Are there any twists in the wing?

Do the wings and removable tailplane seat properly on the fuselage every time?

Is the engine set at the proper thrust angle as shown on the plans?

Control Surfaces

Are all control surfaces securely attached? (i.e., hinges glued, pinned). Pull on each one to test.

Are the control horns secured to the model?

Control Linkages

Have all the linkages been checked to be sure they are secure?

Are the clevises closed? (Keepers or fuel tubing should be fitted to ensure they stay closed)

Engine / Motor Mount Security and Operation

Are all engine mount screws tight, including mount to bulkhead if applicable?

Are the propeller bolts and/or spinner tight? If a single nut, is there a safety nut as well?

Does the throttle work without binding?

Does the throttle trim tab shut down the engine?

Has the propeller been balanced and checked for damage?

Are the propeller tips painted a contrasting color? (while not essential it makes the propeller much easier to see)

Has the engine been thoroughly test run? (engine idle and throttle up properly)

Is the fuel tank installed correctly? (i.e., carburetor at the same height as fuel tank, fuel tank clunk in proper position and moving freely, fuel lines in good condition and connected to the engine correctly)

Radio Equipment

Are the receiver and the battery securely mounted and padded with foam to protect from vibration and shock?

Are all the electrical connectors secure?

Is the receiver antenna fully extended and in good condition?

Are the batteries charged and in good condition (check under load with a voltmeter if unsure)?

Are all servos securely fastened to the rails or trays?

Are servo arms firmly attached with screw in place?

Are all push rods firmly secured in servo arms (again keepers or fuel tubing should be fitted)?

Are the control throws in the correct direction with proper amount of deflection (as per plan)?

Rudder & tail wheel: Left stick should move the rear of the rudder and tail wheel to the left.

Nose wheel: Left stick should move the front of the nose wheel to the left

Aileron: left stick should move left aileron up and right down.

Elevator: Pulling back on the stick should move the back of the elevator up.

Canard: Pulling back on the stick (elevator) should make the front of the canard move up

Throttle: With trim set fully forward, pushing the stick forward should open throttle fully. With trim set fully backward, pulling the stick back should fully close the throttle.

Has a full range check been performed? (see below)

Undercarriage (where fitted) Is the undercarriage firmly attached to airframe and the wheels securely retained?

Does aircraft taxi in a straight line?

General

Is the covering tight with no visible signs of damage?

Are the retaining bolts in place and secure?

Are any hatches, cowlings, and canopies secure?

Are all components structurally sound?

Is your name and contact details marked on the model somewhere easily visible? (in case it is lost)

Range Checking the radio

Verify frequency is available and mark it as yours if necessary.

Turn on transmitter check the correct model is selected (if applicable) and then turn on the receiver.

Important: make sure the transmitter aerial is down fully.

Ask someone to help and walk away from the model until signs of loss of control are apparent. If electric powered ensure that the range is not worse with the motor running.

Before EVERY flight:

Check the receiver battery pack to ensure enough charge for the flight intended.

Check for damage and the control throw direction of all surfaces.

S.T.A.R.S. Field Rules

1. General:

- A. License: All pilots, students, and flying guests *must* have a current membership in a nationally recognized model aircraft association in order to fly. Those pilots participating in the Park Pilot Membership Program must fly models that weigh two pounds or less and be incapable of reaching speeds greater than 60 mph. They must be electric or rubber powered, or of any similar *quiet* means of propulsion.
- B. Spectators: Only those people essential to flight operations will be permitted in the pit area; all others will remain on the spectator side of the fence.
- C. Vehicles: Vehicles will not be permitted *on* the flying field.
- D. Crash Debris: Pilots must retrieve all pieces of their aircraft after a crash. Particularly, attention must be made to obtaining all pieces of aircraft that land in the neighboring fields under cultivation *or from the mowed areas that might cause damage to mowing or farming equipment.*
- E. Trash: All members will take home their own trash.
- F. Alcoholic Beverages: Members will not consume alcoholic beverages prior to, nor during, participation in any *modeling* operations.
- G. Smoking: Smoking will not be permitted in the pit area or on the flight line.
- H. Mowing: Flying on the field will not be permitted if the field is being mowed or maintained.

2. Transmitters:

- A. Frequency Control: *2.5 GHz technology is prevalent in the hobby. In general, transmitter impound and channel flagging is no longer necessary. Pilots using a non-2.04 GHz transmitter system or FPV video transmitter should make all efforts to determine if others present are also using one and self-manage frequency separation prior to powering up their transmitter. Event Managers and Contest Directors may establish a transmitter impound or channel frequency control policy for their event, if deemed necessary.*
- B. Range Checks: Each pilot will conduct a successful radio equipment ground range check, *including any FPV equipment*, before flying a new or repaired aircraft and prior to each flying session.

3. Engines:

- A. All internal combustion engines run at the field will have a silencer (except for small displacements of .09 cubic inches or less).
- B. When running an engine in the pits, keep neighboring personnel behind the prop arc. *Restrain fuel powered airplanes with stakes, starting stand, or helper prior to starting the engine(s).*

- C. Electric motors and fuel engines are not to be run in spectator/pavilion areas or anywhere behind pit area fencing or designated test stand/hover areas, unless propellers/blades are removed. Model electronics (receivers, servos, etc.) can be powered up in spectator areas as long as electric motors are disconnected or propeller/blades are removed.
- D. Remove or secure all necklaces, straps, loose clothing, hoodie ties, etc. prior to starting a fuel engine powered model. Long hair should be tied back or secured so it cannot get caught in a spinning propeller or rotor.

4. Flying:

- A. Boundaries: Flying over the pit area or the spectator side of the fence is prohibited, unless beyond the control of the pilot(s).
- B. Taxing: Taxing is prohibited in the pit area!
- C. Flying:
 - (1). Pilots will initiate their first turn after takeoff away from the pit and spectator areas.
 - (2). Engines will not be started before 9 AM Monday through Saturday and 11 AM on Sunday (electrics may start at 10 AM), unless approved by the Event Director.
 - (3). No more than three aircraft will be permitted in the air at one time.
 - (4). All flying will be conducted from the designated flight boxes.
 - (5). Hand launching of aircraft is prohibited from the pits.
 - (6). Flight operations will cease during electrical storms.

5. Guests:

- A. All guests must have a current membership in a nationally recognized model aircraft association in order to fly.
- B. Guests may fly at the field only with the approval of a member in good standing and only as long as a sponsoring member *remains at the field*. Guests will not fly unattended.
- C. A local guest will be allowed to fly at the field on three (3) separate occasions and then will be asked to join the Club.
- D. An out-of-town guest may make arrangements with the Club to fly at the field while visiting the area. The Club Officers and the Safety Officer will handle each out-of-town visitor on a case-by-case basis.
- E. *All guests are required to extend every courtesy to current members sharing the same flying frequency.* But when there is a conflict over who shall fly, the Club member will have the first option to fly. Both the guest and the members should use common sense while sharing the flight line or using the same radio frequencies.

STARS

Field Protocol

Dedicated to responsible
RC fun with safety by
choice, not chance.

1. General:

- A. Civil and courteous behavior is required at the field at all times.
- B. Safety is paramount and everyone's business. Use common sense in all matters.
- C. It is strongly recommended that you do not fly alone.
- D. Learn where the First Aid station is located and inform the Field Committee if material has been issued from it.
- E. When opening or closing combination locks, *always* set the wheels to 0000.
- F. Last member out must close and lock the refrigerators, pavilion, and main gate.
- G. **Limited use of cell phones and mobile devices on the flight line to photography/videography or integrated use with model systems. Talk, text, and browse from the pits or spectator areas.**

2. Engine Courtesy:

- A. Long term tuning and initial break-in should be conducted away from the pits and spectators (usually at the engine break-in stand).
- B. Do not direct prop wash at other modelers, their aircraft, equipment, or bystanders behind the pit fence. Kindly inform those bystanders near the fence that you intend to start an engine before you do so.

3. Flying Courtesy:

- A. Any person wishing to enter an active flying field or runway to cross same or to retrieve an aircraft, must loudly announce their intention to all fliers on the flight line.
- B. A landing aircraft has the right of way over an aircraft taking-off.
- C. A dead stick aircraft has the right of way over all others.
- D. All take-off and landing attempts must be announced to other pilots on the flight line. Take-offs are normally announced by saying taking off, and landings are announced by saying landing or coming in. Dead stick landings are announced clearly to all pilots in the pits and on the flight line by saying dead stick.
- E. A pilot having difficulty in controlling his/her aircraft must announce to all in the pits and on the flight line that he/she is experiencing radio or mechanical problems. Pilots on the ground preparing to fly will turn off their transmitters and wait for the problem to be resolved before continuing to fly. Fliers in the air will stay clear of the aircraft in distress and will land, if possible, as long as it does not contribute to the crisis. All personnel near the pit area must be alerted to the situation.
- F. If a crash occurs on the field or in the pits, all flying will stop until the accident has been investigated and the debris has been cleared from the field.
- G. Normal flight duration is 10 minutes. Obviously, flight time may be extended if there are no other pilots waiting to fly or waiting for a particular radio channel.
- H. When you have finished flying, please return your transmitter to the impound.

4. Good Earth Policy:

- A. Place recyclables in the appropriate container in the pavilion.
- B. Turn off all pavilion lights when departing the field for the night.
- C. The field does not have a trash removal service. If you carry anything to the field, carry it back out.
- D. If a pilot or guest brings a pet to the field, he/she will be responsible for supervising the animal's conduct while at the field. Please observe all appropriate Field Rules.
- E. If you smoke, please place all cigarette butts in the butt cans in the field.
- F. Do not **dispose of trash in the outhouse/port-a-potty pit.**
- G. **DO NOT DRINK THE WELL WATER.** Well water is to be used for washing only.

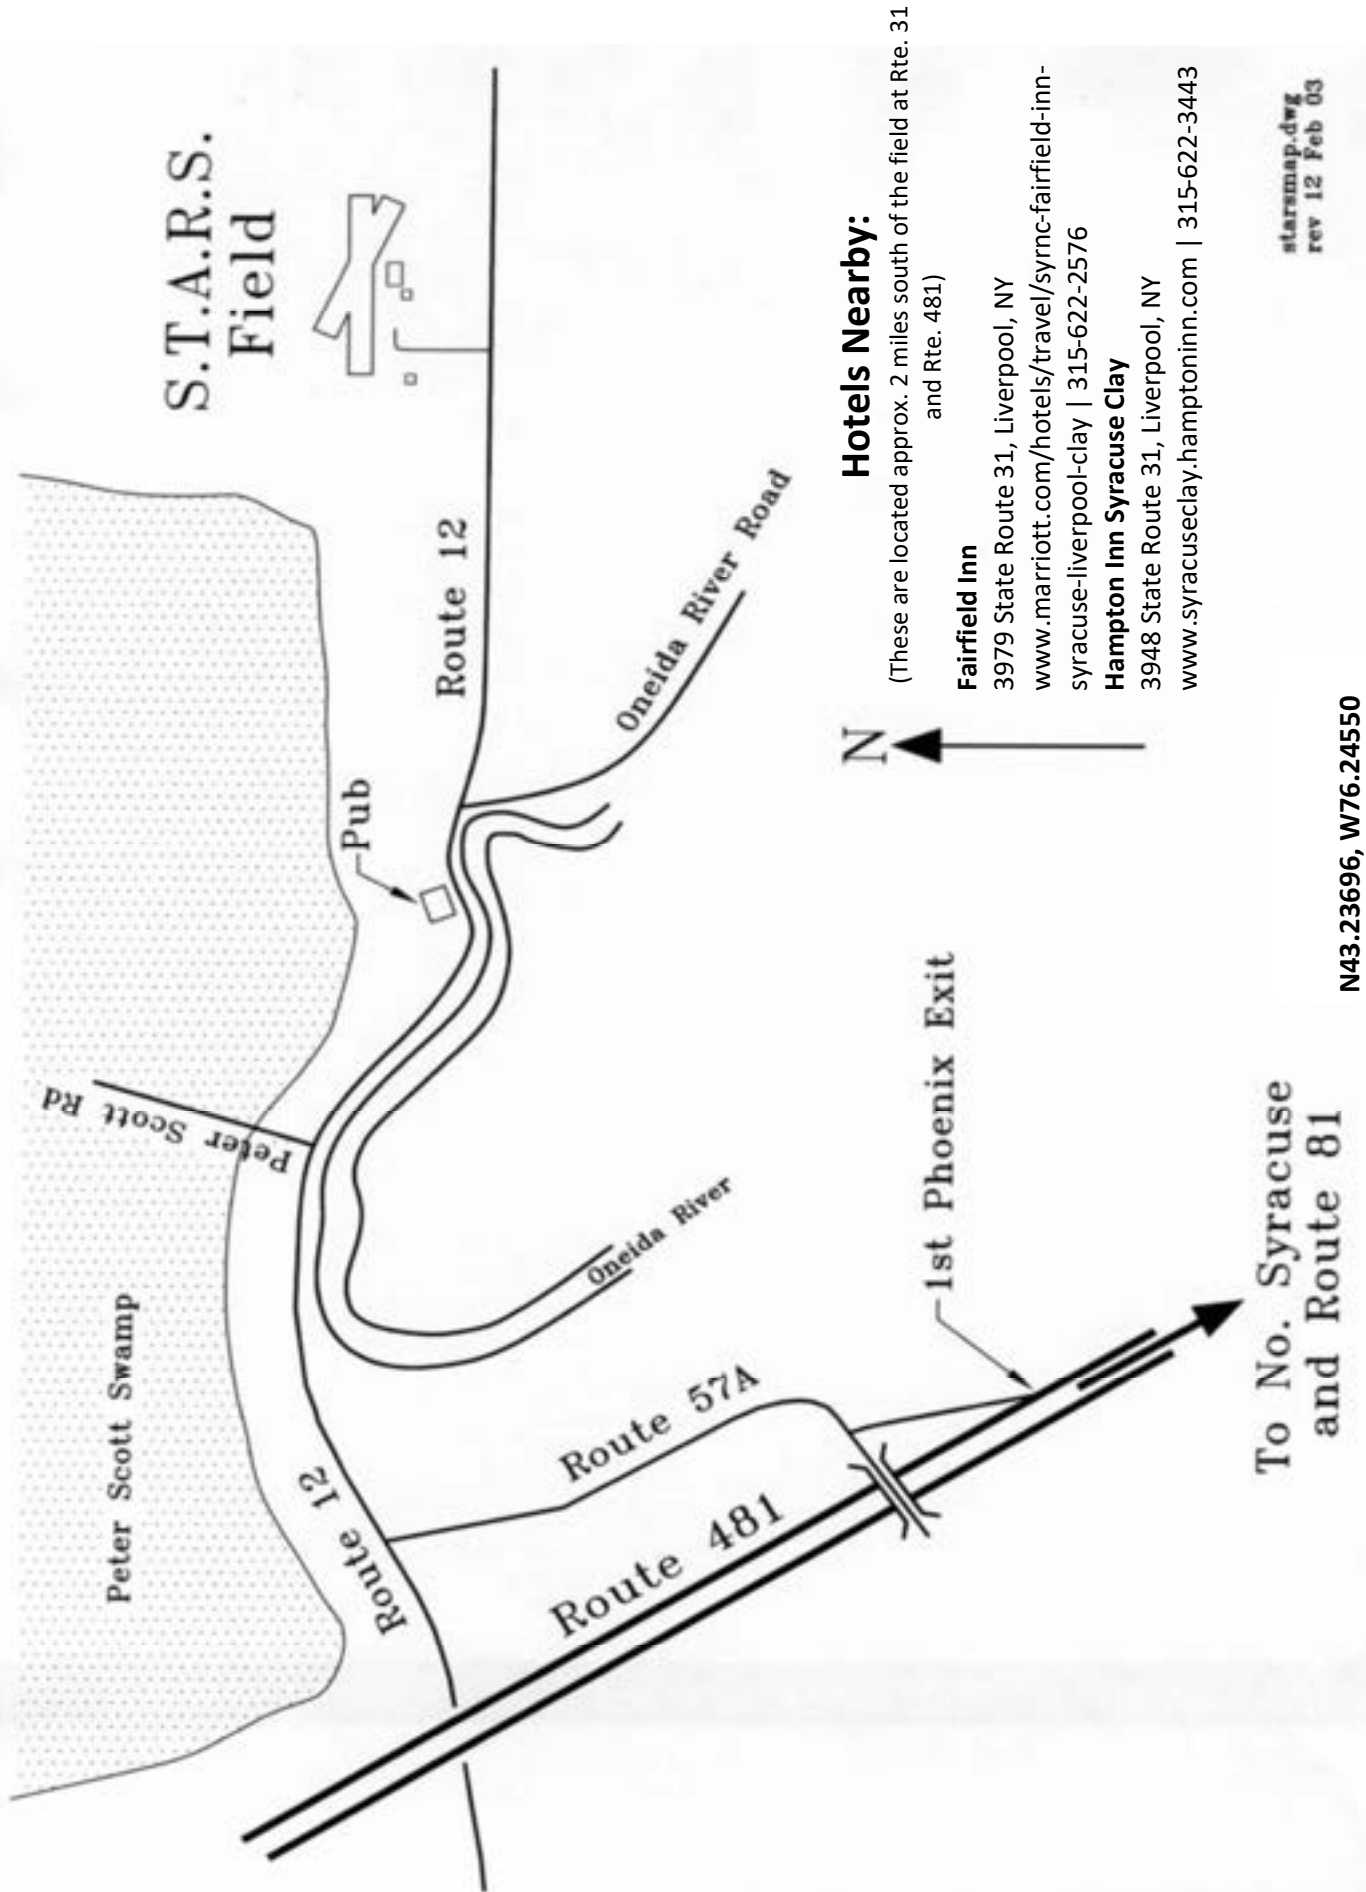

5. Replacement Courtesy:

- A. Where an individual's plane or property is damaged by the actions of another individual, it will be the responsibility of the two parties to resolve the situation in an appropriate manner.

STARS POLICY REGARDING PHOTOGRAPHY

- STARS is a membership organization organized under the laws of the State of New York.
- The STARS flying field, located in Phoenix, New York, is owned by STARS, and as such, is privately owned property.
- The purpose of this policy is to limit and restrict the reproduction of images, in any form, of the STARS property and the activities which occur thereon.
- While the STARS property is privately owned, members, guests, and the general public are welcome at the field during published field hours of operation. Members, guests, and the public must adhere to all rules imposed by STARS regarding entry upon and/or the use of STARS property, including the STARS policy on photography.
- The reproduction of images of the STARS field or the activities thereon, in any form, is a privilege and not a right.
- Except as provided below, the reproduction of images of the STARS field or activities thereon in any form, including, but not limited to film and digital still photography, and video photography in either film or digital form, is strictly forbidden.
- Violation of this policy will result in immediate expulsion of the violator from the STARS premises, and may subject the violator to criminal and/or civil sanctions and penalties.
- Members in good standing of STARS shall be exempt from the above requirements so long as any images or video produced on the STARS premises or the activities thereon are for personal and non-commercial use.
- Guests and the general public may be permitted to photograph or video the STARS property and activities thereon, but only for personal and non-commercial use, and only with the prior written consent of the Club's executive board.
